Overview of ePortfolio Uses

- International practices
- Collaborative efforts
- User demand
- Institutional requirements
Case Study: MSc Applied eLearning

- Pilot study of the use of Mahara ePortfolio software to support the MSc in Applied eLearning.
- Repository of resources
- Each ePortfolio will reflect participant progress throughout the Programme
- Ultimately, the ePortfolio will act as a vehicle for the demonstration of continued improvement of practice through a combination of critical inquiry, professional development, and reflective analysis.
- From the participants’ perspective, the ePortfolio specification needed to be clear and simple, support needed to include regular peer conversation, reviews and feedback and they have expressed a preference for exposure to exemplars of good practice in ePortfolio development.
