DAY JUNIOR TECHNICAL COURSE FOR BOYS

As the demand for admission greatly exceeds the accommodation available, boys will be admitted strictly in order of merit as determined by special Entrance Examination conducted during the first week of enrolment.

DESCRIPTION OF COURSE

The Course is specially designed as a pre-employment training for boys between the ages of 13½ and 16½ years, preparatory to entering into trade or industrial occupations. A sound training in the Engineering and Woodwork Workshops is combined with the necessary instruction in Practical Drawing, Calculations and Workshop Science, and the usual general educational subjects are continued throughout the Course. The classes are so arranged as to afford the opportunity of gauging the boys' aptitude for, and inclination towards, particular types of occupation. Religious Instruction is given by the local Clergy, while Physical Training and Organised Games are also provided.

The value of this Course for boys who intend to follow trade rather than clerical occupations cannot be too highly emphasised. Very many employers and firms make it a necessary condition for entry into employment and no other boys are accepted. During recent years this practice is becoming more and more common, and the boy who has not had this preliminary training is severely handicapped. The School is continually being approached by employers for boys, and for years past there has been no difficulty in finding suitable employment for the pupils.

The School year extends from September to the end of June.

A number of SCHOLARSHIPS are awarded on the results of special examinations which are held annually early in June at the Technical School, Bolton Street, Dublin.

The Fee for the above Courses is £1 per session (September to June).

A special examination is held annually for boys attending at this Course. The examination is conducted by the Department of Education (Technical Instruction Branch), and recognised State Certificates are awarded to successful candidates.

Entrance for the examination is not compulsory, but students are strongly advised to concentrate on obtaining evidence of the attainment of a definite educational standard such as is shown by the possession of this Certificate.

This examination has been accepted by the Electricity Supply Board, by the Society of Irish Motor Traders and by Irish Shipping, Limited, as the qualifying examination for entrance to their Apprenticeship Courses.

A fee of 2s. 6d. is charged for entrance to the examination.

3. TRANSFERS.

An enrolment is not transferable from one student to another. 4. DISCIPLINE.

The School Authority may suspend any student for breach of rules and regulations; absence from classes; irregular or unpunctual attendance; disorderly conduct in the School or within the School precincts; disobedience to a member of the staff; or for any other reason deemed sufficient. The Committee reserves the right to confirm such suspension and to cancel the enrolment without refund of fee. Where immediate action is required because of indiscipline on the part of the students, any member of the School Staff has authority to take appropriate measures, pending report to the School Authority.

8. SCHOOL PROPERTY.

Where School property is damaged willfully or through careless conduct on the part of students, such students (or their parents or guardians) may be required, on the order of the Committee, to pay for such repairs or replacements as may be necessary.
9. CHANGE OF ADDRESS.
Students should notify the School Authority of any change of address.

10. BOOKS, STATIONERY, EQUIPMENT, DRESS.
Students are expected to provide themselves with such books, stationery, equipment, and dress as may be required.

11. INFECTIOUS AND NOTIFIABLE DISEASES.
The head of the household must inform the School Authority immediately of any infectious or notifiable disease which may occur in the house in which a student is residing. Such student must not resume attendance until permitted to do so by a medical officer.
